Examinations moves into a new era!

Examinations are saying ‘goodbye’ to hard copy examinations and ‘hello’ to more efficient online examinations.

To date, outstation examinations were completed on paper. Among the many disadvantages, this system delayed the release of results and the SACAA examination officers had to mark them manually. However, students will now see their results immediately and the entire process has been streamlined.

This integral part of EBS is a milestone achievement that will ensure the integrity of SACAA examinations. This is in line with the SACAA’s continued commitment to improve customer service.

The first outstation online examination was conducted in Durban on 24 June 2019 under the supervision of the examinations officer, Mr Kwena Manamela. He was assisted by the IT specialists, Mr Aubrey Kgeledi and Ms Lizzy Malekane, who is a Finance intern.

It is anticipated that this project will be expanded to all other examination centres in the month of July 2019.

Well done to everyone involved!
