CHANGES TO SACAA PROCESSES DURING EBS IMPLEMENTATION

Dear Industry Members

We are optimising business processes, improving client experience and promoting information-sharing! This is being done through the implementation of the Integrated Electronic Business (EBS) solution, and spans across various functional areas within SACAA. However, as with all change, initially some processes are likely to take a little longer than planned.

A number of Designated Aviation Medical Doctors (DAMEs) are currently piloting the Aviation Medicine Module, which went live on 9 September 2016. Once the piloting process is completed, the system will be rolled out to other DAMEs in a phased approach. We are also currently conducting a second round of regional training workshops with DAMEs in preparation for the roll-out of the system.

Moreover, the implementation of the Flight Crew Licensing Module is also under way and the planned go-live date is the 7th of November 2016. The processing of licences may take longer than usual, as SACAA will be transiting to the new system as of the 1st of November 2016. We therefore advise our clients to allocate extra time for their first application until post-implementation of the system.

Pilots will be expected to indicate all type ratings and specific series on which they are rated, on a separate sheet. Certified true copies of logbooks with appropriate endorsement of such series will be required for verification purposes. However, this only applies to type ratings, not class ratings.

We appeal to the industry for patience during these initial stages of implementation and apologise in advance for any inconvenience that this may cause. The industry's assistance will ensure the success of the SACAA's endeavours to improve its services.

Should you have any queries, kindly contact the SACAA offices at the contact details provided below:

Mr Johan Niemand
Senior Manager: Personnel Licensing
E-mail: NiemandJ@caa.co.za

Or

Ms Neo Gouwe
Manager Licensing
E-mail: GouweN@caa.co.za

Or

Dr L Bogatsu
Senior Manager: Aviation Medicine
E-mail: BogatsuL@caa.co.za

Yours faithfully

Poppy Khoza
Director of Civil Aviation
