AUTHORITY*

CAA MEDIA STATEMENT

13 DECEMBER 2006

**INDUSTRIAL ACTION AT THE SOUTH AFRICAN CIVIL AVIATION
AUTHORITY (SACAA) IN MIDRAND**

The South African Transport and Allied Workers Union (SATAWU) have advised the SACAA management of their intention to strike on 14 December 2006 from 7am. The strike is protected. The strike is with regard to the payment of the performance-based bonuses in December 2006, which goes against the board of directors' resolution to delay this until after the financial year end (March 2007).

The SACAA will therefore be working on a limited staff compliment from Thursday until further notice. The SACAA further requests its clients to please be patient whilst this situation prevails, as productivity will be affected. Contingency plans have been put in place to deal with emergency cases that cannot wait for an alternative date.
